

# Hannes Rosenbusch, Ph.D.

## Data Scientist | Behavioral Scientist

“My work revolves around data collection, statistical analysis, ML, DevOps, and consulting.”

<https://hannesrosenbusch.github.io> | \*firstname.lastname@gmail.com

### Appinio GmbH

- **Head of Data Science** (01.12.2022 – today)
- **Data Scientist** (01.06.2021 – 30.11.2022)

Team lead; development/deployment of analysis tools, dashboards, and statistical models

### University of Amsterdam

- **Assistant Professor** (15.05.2021 – today)

Research, teaching, and administrative work in behavioral data science

### Selected projects

- Publication of 12 peer-reviewed papers on research methods and behavioral science
- Social media content creation for a market research company (statistics education)
- Development of an ML/NLP web application for science publishers
- Development of data simulation software for video game designers
- Development of web apps for Bayesian MLM and conjoint experiments
- Consultation of a talent management company on fair and explainable AI
- Consultation of a large aircraft manufacturer regarding data on their expatriation practices
- Consultation of an FMCG company on managing large consumer behavior datasets

### Teaching

I teach data science, AI, consultancy, and psychological science on the Bachelor and Master level. Further, I gave various machine learning workshops, and guest lectures at Princeton University.

### Ph.D. project (highest distinction; voted second best dissertation across faculties)

Title: “Computational methods in the behavioral sciences” (Tilburg University)  
Topic: Integrating unstructured data, optimization algorithms, machine learning techniques, and open source software into behavioral research?

- Summer Institutes in Computational Social Science (2018) & Big Data (2017)
- M.Res. Behavioral and Social Sciences | GPA: 8.9 (0-10) | University of Groningen
- B.Sc. Business Psychology | GPA: 1.6 (6-1) | Leuphana University (+ University of Queensland)

### Day-to-day languages and tools:

Bash, Git, Docker, R, Python, SQL, MongoDB, AWS, Azure, NetLogo, Qualtrics, Adobe CC, MTurk/Prolific, Webmorph, CI/CD tools, ticketing tools; Basics in: C, JavaScript, HTML, CSS

### Prizes, grants, and engagement

- Research Talent Grant (NWO, 2017); Excellent Student Grant (GUF, 2016)
- Tilburg Dissertation Prize (2022)
- Master thesis coordinator for Behavioral Data Science students
- Co-founder and editor of The Amnesty Post in Groningen (student magazine)
